For over 13 years Yardstick Landscape Services Pty Ltd has developed a tradition that responds to as well as influences its environment.

Striving for clarity of purpose in all aspects of design, our team and strong associations with Adelaide's best artists and tradespeople create legible, beautiful, and enduring places.

With a knowledge and appreciation of our surrounds, backed with experience and training in horticulture, design and construction we manage projects from small domestic gardens to commercial sites.

Our qualified, experienced, licensed and insured team can help you with all of your landscape needs, from simple planting plans to detailed construction documents, through to perfectly built landscapes

".....clarity of purpose in all aspects of design"

OUR PASSION...

Landscapes are our passion - and that passion is reflected in the spaces we create. We believe place making is an art, made of the elements within the garden, its relationship with its surrounds, and the connection with the people who experience it.

OUR PROCESS...

Yardstick Landscape Services follow a proven design and planning process in which the client is an integral part. We stay connected, listen and respond to your needs. We enjoy operating in multi-disciplinary teams, and know how to work with owners, project managers, architects, contractors and other consultants. We actively design and react to the site throughout the construction phase, and strive to clearly communicate the process to our clients.

"..place making is an art..."

QUALITY...

We ensure all of our projects meet or exceed our clients expectations through a strict in-house quality assurance program. Please discuss our QA procedure with us.

SUSTAINABILITY...

We are committed to building sustainability into design, and we actively participate in and encourage sustainable design systems thinking. From design of food production systems, Permaculture design, and water sensitive urban design down to careful plant selection and soil care, we consider it our responsibility to aim for a beneficial and sustainable result.

COLLABORATIONS...

Our relationships with other professionals and experts lead to design outcomes far in excess of what can be achieved individually. To date we have, and continue to collaborate with

"We could not have been happier with his understanding of our needs and innovative design for our courtyard"
-K. Schaffer, Vale Park

*"..it looks fantastic and compliments the architecture of the house .
...getting a great garden design was the best investment I made when I built my house"*
-Simon Bryant, chef, Brompton

"He stuck true to his quotes and his team were outstanding in their professional, polite, friendly manner, were respectful of the environment they were working in and gave updates on progress on a regular basis.

Thank you Peter for your patience, understanding, listening skills, holding open discussions and your amazing knowledge!"
-Vicki Cook
Business Manager
The Heights School
